

## Planting Mix 5:

# Coffeeberry Scrub

Planting mix precedent

Mound San Bruno  
California Coffeeberry

Purple Needlegrass

Blueblossom Ceanothus

Coast Live Oak

## Plant species

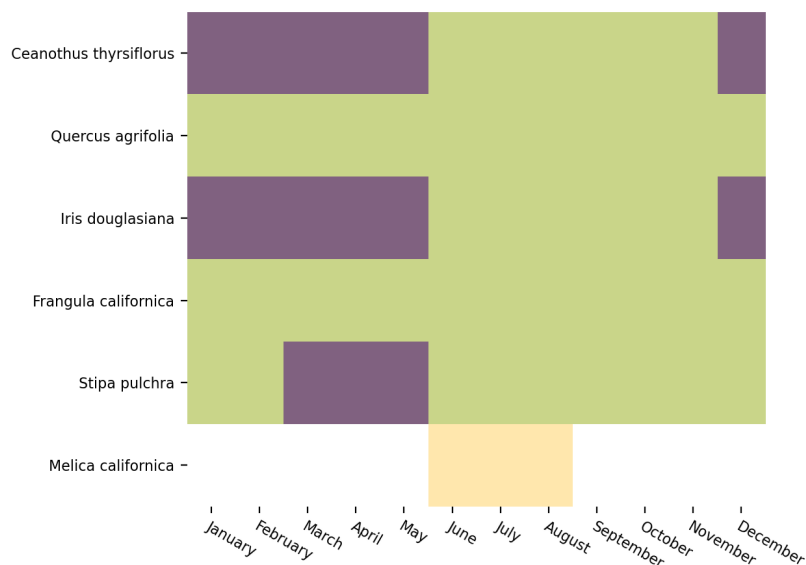

## Landscape inspiration:

An edge condition of an oak woodland that includes plants that are compatible underneath a canopy of oak trees, with glossy, deep green leaves of different sizes and types that create varied texture.

## Our design response to test:

- A braided river of coffeeberry with clusters/pockets of seasonal grasses and iris emerging from it and just a few individual ceanothus to add structure.

## Anticipated plant colors during year:

## Plant list:

### Groundcover Layer (50%)

Mound San Bruno California Coffeeberry  
(*Frangula californica* 'Mound San Bruno')

### Filler Species, broadcast as seed (5-10%)

Purple Needlegrass (*Stipa pulchra*)

### Seasonal Layer (25-40%)

California Melicgrass (*Melica californica*)  
Douglas Iris (*Iris douglasiana*)

### Structural Layer (10-15%)

Blueblossom Ceanothus (*Ceanothus thyrsiflorus*)  
Coast Live Oak (*Quercus agrifolia*) \*existing tree
